## WHO AM I?

Dedicated and self-motivated Full Stack Developer with 4 years experience and proficiency in the following: Nodejs, Reactjs, C, HTML and CSS, and AWS serverless architecture arsenal. Very familiar and experienced in modern MVC frameworks and SDLC. An excellent team worker.

## EXPERIENCE

- 2017 – 4/2017  
part time
- Back-End Developer** Denis Boyd & Associates  
Designed and developed web application run by a group of psychologists. The web application offers end users 25-day boot camp for strengthening mental health.  
`node.js` / `expressjs` / `mongodb` / `AWS EC2`
- 2018 – 2019
- Full Stack Developer** Solo Project  
Front-end developed using ReactJS and back-end is running using ExpressJS, and hosted on Heroku applications. Back-end is connected to Mongo DB which hosted on remote mLab server.  
`reactjs` / `semantic-ui` / `nodejs` / `mongodb` / `heroku` / `api`
- 10/2019 – 2020
- Full Stack Developer** TheSheph.com Project  
Designed back-end of the web application and implemented DB server on remote proxy server. Implemented easily understandable REST API calls for front-end access.  
`reactjs` / `bootstrap` / `nodejs` / `AWS EC2` / `heroku` / `mongodb` / `api`
